READ AND YOU WILL LEARN

That the leading medical writers and teachers of all the several schools of practice endorse and recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung diseases (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherrybark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., late of Cincinnati; Prof. John M. Scudder, M. D., late of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such *professional* endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula on the bottle wrapper is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous or harmful agents and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful ingredient in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable.

A booklet of extracts from eminent medical authorities, endorsing its ingredients mailed *free* on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

Governor Defied.

Within the shadow of the home of his victim, Miss Jennie Brooks, after having been identified by her, and after Governor D. C. Hayward, who yesterday went to the scene of the trouble, had addressed the mob in vain, Bob Davis, the negro, who, on Monday, murderously attacked Miss Brooks, with intent to commit an assault and who afterwards outraged a negro girl, 14 years old, was lynched at Greenwood, S. C., about 7:30 o'clock yesterday evening.

Governor Hayward reached the scene shortly after the negro had been captured. A platform was erected in a fence corner on the premises of the victim's father, from which platform Governor Hayward addressed the mob in an effort to prevent the lynching. The Governor beseeched the mob not to lynch Davis, but in vain.

At the conclusion of his speech the Governor was vociferously cheered. The mob then removed the prisoner from the view of the Governor, and within a short distance of the home of his victim the negro was riddled with bullets. It is impossible to estimate the crowd, as citizens from several counties had gathered at the scene, and for two days had been in pursuit of the negro, but it is certain that hundreds of bullets were sent through his body.

The assault by Davis on Miss Brooks was made in her father's store, where she was temporarily in charge. After making some purchases the negro grasped a meat knife, shouting: "You are what I want," and sprang toward the girl. Miss Brooks attempted to defend herself with an iron bar, but the negro slashed her across the throat, making a gash four inches long, and almost severed two of her fingers. Afterward he went three miles to another farm and outraged a 14-year-old negress. A posse started in pursuit of the negro soon after the outrage at the Brooks store and finally captured him yesterday afternoon, near Ninety-six, a town nine miles from Greenwood.

Declares Law Must Stand.

M. Briand, the French minister of public worship, yesterday received several of his political supporters and discussed with them the situation created by the Pope's encyclical letter to the French archbishops and bishops with reference to their attitude toward the law for the separation of church and state. M. Briand denies that the government was disposed to enter upon negotiations with the Pope for an understanding based on a modification of the law, which, he declared, must be applied as it stands.

M. Briand added that the government believed that the laws would be accepted in the end, and he sincerely desired that it should be so on account of the intercine strife which refusal of the clergy to accept the law would entail; but he had also forseen the possibility of resistance and had taken all necessary steps.

"I do not wish to say more on this subject," the minister concluded, "but, perhaps, some of these measures will prove a disagreeable surprise to certain parties."

The Paris Temps points out that in consequence of the refusal of the clericals to form law associations to conduct the affairs of the church they will not have, after December 11, any claims to the church edifices, which will be disposable for the benefit of the communes and charitable organizations.

Relative to the pensions allowed the clergy under the law, the article in the Temps says: "These are still receivable as grants for services before the separation of church and State."

Statistics show that 16,766 clergymen are entitled to life pensions and 21,279 to temporary awards ranging from four to eight years, the total amounting annually to $5,800,000.

Attempt to Wreck a Mill.

Having overpowered the watchman, Charles Riley, at the point of a pistol, a score of men Wednesday night attempted to wreck the new $100,000 iron mill which is being erected by the Longmead Iron Company, in Conshohocken, near Norristown, Pa. That the mill was not pulled down is due probably to the lack of experience of the men in running a hoisting engine. The damage wrought will be several thousand dollars. The watchman says he was kept a prisoner for more than an hour.

The wreckers set the boiler-house afire. The flames attracted the attention of a workman at the adjoining mill of the Longmead Company. Thinking his house was afire, he gave an alarm and workmen started to put out the flames. They discovered what was being done and put the wreckers to flight.

The main supports of the structural work had been unbolted, the boiler ruined and the forges smashed in pieces. Ropes and guylines were cut, tools broken and blueprints destroyed.

The identity of the wreckers is not known, but the company officials claim the attack was aimed at the contractors engaged in erecting the plant because they do not recognize union rules.

He Was in Trouble.

"I was in trouble, but found a way out of it, and I'm a happy man again, since Dr. King's New Life Pills cured me of chronic constipation," says E. W. Goodloe, 107 St. Louis St., Dallas, Tex. Guaranteed satisfactory. Price 25c at E. S. Leadbeater & Sons' drug store.

Thousands of Women

ARE MADE WELL AND STRONG

Success of Lydia E. Pinkham's Vegetable Compound Rests Upon the Fact that It Really Does Make Sick Women Well.

Thousands upon thousands of American women have been restored to health by Lydia E. Pinkham's Vegetable Compound. Their letters are on file in Mrs. Pinkham's office, and prove this statement to be a fact and not a mere boast.

Overshadowing indeed is the success of this great medicine, and compared with it all other medicines and treatment for women are experiments.

Why has Lydia E. Pinkham's Vegetable Compound accomplished such widespread results for good?

Why has it lived and thrived and done its glorious work for a quarter of a century?

Simply and surely because of its sterling worth. The reason no other medicine has even approached its success is plainly and positively because there is no other medicine in the world so good for women's ills.

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant—not because it is a palliative, but simply because it is the most wonderful tonic and reconstructor ever discovered to act directly upon the female system, positively CURING disease and displacements and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue in Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due. If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience that it will effect a cure.

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), weakness, displacements, inflammation, ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to health and strength by taking Lydia E. Pinkham's Vegetable Compound. Anyway write to Mrs. Pinkham, Lynn, Mass., for advice. It's free and always helpful.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is completed by the fact that a rabbit innoculated with the germs became bald in six weeks' time.

It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent. of cases by the application of Newbro's Herpicide.

Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

Accept no substitute. "Destroy the cause you remove the effect."

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co. Detroit, Mich.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

FRIDAY EVENING, AUG. 17, 1906.

SPEAKER CANNON'S presidential boom was fairly launched yesterday in the district convention at Danville, Illinois, which nominated him for his eighteenth term in Congress. Only once has the nomination failed to result in an election. In a heated congressional debate many years ago Mr. Cannon used an expression which might not have been out of place in a barroom, but was in the House of Representatives. It was pretty rank, but broader things have occasionally been uttered in Congress. However, at the moment politics was in a state of unstable equilibrium, and such use was made of that indiscretion of speech that he was defeated. With the exception of one term Mr. Cannon's service in Congress has been continuous. His present office is reputed to be the most powerful in this government with the exception of the presidency, and for that his constituents have now proposed him. There is no doubt that the republican convention of his State will declare him to be the "favorite son" of Illinois. He is above the age at which men are generally named for the presidency, but his force is as great as ever, and if Mr. Roosevelt is not again the candidate the Speaker is the leading figure, on his side of the party fence, in the national arena.

MAYOR MCCLELLAN, of New York, who has reached Berlin, is satisfied to leave Wm. Randolph Hearst in undisputed possession of the municipal ownership issue. In Frankfort and Dresden, which own their own trolleys, he found that although the traffic was light, conditions were allowed to exist which would not be tolerated in an American city. Public ownership in Great Britain, with the possible exception of Glasgow, he regards as worse than on the continent. His faith is still in the private enterprise that has made the United States what they are; but, of course, as says the Philadelphia Record, a good many people are so constituted that they must believe whatever is, is wrong, and that change is improvement, and the part of wisdom is to fly from the ills we have to others that we know not of, and therefore disregard.

AT THE republican convention which renominated him for Congress in Illinois yesterday, Speaker Cannon made his "stand pat" speech which, it is announced, is to be the keynote for the republican campaign speakers. During his speech, in which he opposed a reduction in the tariff, he said: "I heartily indorse the platform lately adopted by the republicans of Indiana, which, in substance, says that the republican party will revise the tariff when it will do more good than harm to the great mass of the people." But the republicans want to be the judges as to when that time comes and with them it is always manana.

A BLOW was struck the powder trust yesterday when an independent company submitted bids for furnishing powder to the army at a price lower than that of the trust. The Laflin & Rand Powder Company offered to furnish the government 200,000 pounds of saluting powder at 7½ cents a pound in bulk and 7½ cents a pound if shipped in 25 pound packages. The Du Pont Power Company, which is the powder trust, bid from three quarters to 1 cent higher than the lower bidder. The contract undoubtedly will be awarded to Laflin & Rand Company.

A DISPATCH from New York says the Quigg-Odell-Platt combination, now in control of the republican State machine is going to nominate for the governorship Charles E. Hughes. From this it would appear that the republican voters of New York will have nothing to do with nominating a candidate for governor of their State.

A RESOLUTION indorsing W. R. Hearst for Governor was defeated in the Ontario county, New York, democratic convention yesterday. Every county in the State should do the same thing. Democracy is not elevated by such men as Mr. Hearst.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, Aug. 17.

The North American continent was shaken last night by the earthquake that is reported to have wrought great destruction on the west coast of South America. The seismograph at the Weather Bureau here gives a clear record of the earth's tremors. The instrument shows that at 7:50 last night the earth swayed a quarter of an inch in Washington. The quake began at 7:29 and continued for four hours. Officials of the bureau were examining the record of the seismograph this morning when informed by the Publishers' Press of the news from Valparaiso. It was their first intimation as to the location of the quake's greatest force. The records of the shock here indicate that the disaster in South America must have been severe. In the cases of the San Francisco and India earthquakes, the instrument was jarred to such an extent that the recording pen jumped clear of the sheet. In this instance the tremor was not so great.

The weather bureau issued the following official statement at noon: "A very heavy distinct earthquake was recorded on the seismograph at the weather bureau in Washington yesterday afternoon, beginning at five minutes and twenty-two seconds past seven p. m., seventy-fifth meridian time. Complete and perfect records were obtained both of the north and south and east and west movements of the earth. The earth tremors at Washington were of comparatively slow and deliberate motion, each complete movement covering from eighteen to forty seconds of time. The earthquake lasted continuously for several hours, and finally ceased at about midnight. The most violent shock occurred at seven hours, forty-two minutes and twenty-six seconds p. m. From press reports this is evidently a record of the great Chilian earthquake of August 16, and is the heaviest recorded in Washington since the San Francisco earthquake."

Most of the collection of Confederate notes, counterfeits and issues of old wild cat State banks belonging to the widow of Edward G. Moses, late cashier of one of the banks of St. Louis, which was seized by the secret service officials, will be returned to Mr. Moses. Chief Wilkie, head of the secret service and Secretary Shaw decided on this course today. When Moses died a short time ago it was reported that he had a large collection of counterfeit bank notes which he had gathered during his years of service in the banking business. It is strictly against the law for anybody to keep counterfeits of the United States notes in their possession, and agents of the secret service are empowered to seize them whenever they can be found. So Lee Philpot, the agent at St. Louis, proceeded to confiscate Mr. Moses' collection, much to the regret of the widow, and sent it on to Washington. Here it was discovered that among the several hundred specimens there were only 24 or 25 counterfeits of United States notes. These will be taken and destroyed, but the remaining notes, which are those of State banks, wild cat institutions and of the Confederate States government, will be restored to Mrs. Moses.

The Department of Commerce and Labor announces that the trade of the United States with its non-contiguous territories amounted in the fiscal year just ended to $119,304,511. The shipments to the non-contiguous territories amounted to $51,666,000 against $43,500,000 in the fiscal year 1905, this growth of about twenty per cent. occurring in shipments to Alaska, Hawaii and Porto Rico; while to the Philippine Islands there was a reduction of about three quarters of a million dollars. The merchandise shipped from non-contiguous territories to the United States amounted to $672,666,000 against $75,250,000 in the preceeding year, this fall occurring almost exclusively in shipments from the Hawaiian Islands, and being due briefly to the decrease in the value of sugar, which formed the bulk of the $27,000,000 worth of merchandise sent last year from those islands to the United States. The value of gold of domestic production shipped from Alaska to the United States in 1906 was $12,500,000 against $9,000,000 in the preceeding year.

The Department of Justice in an opinion handed down today decide that railroad laborers do not come within the provisions of the law which permits the importation of skilled labor when it is found impossible to skilled labor when it is found impossible to secure the services of such in the United States. Contractors for certain western railroads have imported several hundred laborers from Mexican under the plea that sufficient labor could not be secured in this country. The department holds that such importation if permitted would absolutely nullify the anti-contract labor law.

Postmaster John M. Barnes's challenge to Tom Watson to fight a duel is regarded in Washington as the greatest stroke of humor noticed during dog days. It is said that Barnes holds his commission as postmaster at Thomson, Ga., largely by virtue of a recommendation that the populist candidate for the presidency gave him. The two are old friends and a mutual friend in Washington says they are cronies. This friend takes the position that Barnes attempted to turn off Watson's irritation at some report by reducing it to the ridiculous. No knowledge of the threatened disturbance of the place has reached the Postoffice Department. No investigation of the affair will be made unless there is a formal complaint made against Barnes.

The following statement regarding the failure of the First National Bank at Chelsea, Massachusetts, was issued this morning at the office of the Comptroller of the Currency: "The Comptroller of the Currency has received advice by wire from National Bank Examiner Ewer that the First National Bank of Chelsea, Massachusetts, has been closed by action of the directors. Examiner Ewer has been appointed receiver. The failure of this bank is due to large excessive loans to officers and directors of the bank. "The resources and liabilities of the bank on June 18, 1906, were $1,809,848 66.

In an effort to frighten three boys who were riding on a hand car, Martin Hughes, a Baltimore and Ohio Construction Company special officer, thought he shot into the air. Instead one of the bullets struck William E. Roach, eighteen years old, in the small of the back and he may die from the wound. Hughes paid no more attention to the matter and went to sleep. When awakened and told that he was under arrest he fought desperately with the police on the way to the station house. He is held to await the result of Roach's injuries.

Arthur Estep has been appointed postmaster at Conloville, Shenandoah county, Va., vice L. F. Hambrick, resigned.

Bride Chloroformed.

Chloroforming Mrs. Patrick McKee, a bride of a few weeks, as she lay asleep in their home, in Germantown, Pa., Wednesday night, burglars made away with many of the wedding presents. Fortunately Mr. McKee was awakened by his wife's moans or she might have died as a result of the deadly fumes. Mrs. McKee has been under a physician's care as the result of her experience.

When McKee heard his wife's groans it was with difficulty that he could arouse himself, as the drug had begun to affect him. Seeing that his wife's face was covered with a towel McKee snatched it away and tried to arouse her, but she paid no attention to his calling and shaking. He finally recovered sufficiently to summon a physician. As he did so he saw a man stealing away from the house. Entrance to the house had been gained by means of a false key.

News of the Day.

Government clerks do not like the new civil service law which requires three years of service in one department before they can be transferred to another.

Some Baltimore banks are requiring customers to sign an agreement to maintain balances at a certain point, below which the customer cannot check or withdraw.

The convention of the republicans of the Eighteenth Illinois congressional district assembled at Danville yesterday. They renominated Hon. Joseph G. Cannon for the eighteenth consecutive time, this being his seventeenth nomination by acclamation. The convention unanimously indorsed Mr. Cannon for President of the United States.

The following officers were elected at the meeting of the Grand Army of the Republic in Minneapolis yesterday: Commander-in-Chief, R. B. Brown, Zanesville Ohio; Senior Vice Commander, William H. Armstrong, Indianapolis; Junior Vice-Commander, E. B. Fenton, Detroit; Chaplain-in-chief, Archbishop John Ireland, St. Paul; Surgeon General, W. H. Johnson, Lincoln, Neb.

A dispatch from Kingston, Island of St. Vincent, says an earthquake was experienced there on the night of August 14 and several shocks and tremors were felt on the Island of St. Lucia. There were four shocks an Kingston on the night of August 2, and on the Island of St. Lucia within the space of eight hours there were 51 distinct shocks. The continuous nature of the earth tremors since the severe shock at last February, chiefly in St. Lucia, is causing considerable anxiety

A special from Wylan, in the Pratt mines district, of Alabama, says provisions were distributed yesterday as usual to the striking members, but the miners were informed that this would be the last distribution and that the strike at the mines of the four big furnace companies, which has been on for two years, will be called off next Monday as the result of the special convention of the union miners held in Birmingham this week. The strike has cost the miners' organization more than $1,000,000.

Twice during the present week have young white girls been seized by negroes while passing along dark streets of Huntington, W. Va., but cries from the children have caused the negroes to drop them and beat a hasty retreat. Noah Bradford, 22 years old, a negro porter, was yesterday afternoon identified as the man who Wednesday night seized Ella Wright, aged 12, while the child was seated on her own porch at home. He ran half a square with her before letting her loose. Bradford, after being identified, was quickly hustled to jail, as indignation was great. There are rumors now of a lynching bee.

Feigning illness, three negroes, Alonzo Goodwin, Hammond Wilson and Geo. Kenney, convicts serving long terms on the chain gang of the sanitary and drainage commission work near Ashley Junction, near Charleston, S. C., stopped in the stockade yesterday, and about 2 o'clock, having asked for water, seized and overpowered H. C. Stelle, the white guard, and cut his throat with a butcher knife. Two "trustees" at the stockade were locked in by the men, who ransacked the guards' rooms, donned civilian clothes, and escaped into the nearby swamps. The men, contrary to rules, were not chained in the stockade. The "rusies" broke out and spread the alarm. A sheriff's posse is scouring the woods with bloodhounds.

A FIGHT AT AMHERST.

A fight between ex-Judge Clarence J. Campbell, of Amherst county, and Rev. A. R. Moore occurred in Amherst August 6 and caused great excitement, but for personal considerations no publication was made of the affair until it appeared in a Richmond paper yesterday. The sensational assault with a whip, made by Judge Campbell on Rev. C. H. Crawford, president of the Anti-saloon League, when he was judge of the Amherst County Court, and his removal after a legislative investigation, is still fresh in the minds of the people, and lends added interest to this later affair.

Judge Campbell made this reply over a long distance phone in response to an inquiry: "This occurrence was of a personal nature and occurred over a business matter, and I think the public is not concerned with its causes or consequences.

"Mr. Moore insulted me, or said what I construed as an insult to a gentleman. We had a brief hand-to-hand fight. I used my hand, and he attempted to strike me first with a chair, which I took from him, and later with a stool, when parties held me, and then he ran. This is all that is in it, so far as I am concerned. Our friends had the good sense not to notice it, and thus it ended, so far as Amherst is concerned."

Rev. A. R. Moore, the other party to the altercation, made the following statement:

"It is not true that I struck him with a chair. I did strike him with a stool. The disturbance was in regard to a culvert near his ice pond. He wanted me to move the culvert. He said his pond should be protected and that the culvert should be removed. I told him I could not move it. He then used some profanity and told me I had to do it. His profanity grew worse, and he told me I would have to move the culvert. I told him he must not talk that way. I told him that bulldozing with me did no good.

"He then struck me with his fist while I was leaning back in a chair. I got up and struck him two or three times with my fist. Then I struck him with the stool. He warded off the licks and struck me from behind. Friends then took the stool from me and separated us."

Predicts Democratic Success.

Representative John Wesley Gaines, of Tennessee, has gone to New York to welcome Wm. J. Bryan back to the United States.

Mr. Gaines states emphatically that not only will Mr. Bryan be nominated, but will be elected as the next president. "I've figured it all out," says Mr. Gaines. "Mr. Roosevelt is a pseudo-Bryan president. The people want a real Bryan and will elect him next president.

Mr. Gaines says that, although Henry Clay Evans, the republican candidate for governor of Tennessee, is claiming that he will be elected next fall, he will not be, but that the democratic candidate will be chosen. Mr. Gaines then continued to predict democratic victories all over the country, and claims the next Congress for the democrats by a large majority.

The Grand Army of the Republic will meet in Saratoga next year.

Virginia News.

A marriage license was issued in Washington yesterday to James Stewart Pettit, and Mary Virginia Smith, both of Fairfax county.

F. T. Covey, a florist, of Fredericksburg, has been appointed to superintend the ornamentation of the grounds of the Jamestown Exposition.

Rev. John H. Chapman has resigned the rectorship of Trinity church, Upperville, Meade parish, to accept a call to Ridgefield, Connecticut and has entered upon his duties in his new parish.

The ninth annual convention of the National Firemen's Association adjourned at Roanoke, yesterday, after re-electing James D. McNeill, of Fayetteville, N. C., president. Oklahoma City was selected as the place for holding the next annual meeting in 1907.

Bonds to the amount of $601,400 were offered to the State of Virginia yesterday by the owners in response to a bid by sinking fund commissioners. Of the offerings $119,000 were Riddleberger bonds, $482,000 being Century bonds. The sinking fund commissioners asked for $130,000 and the offerings were surprisingly large and the prices reasonable. All of the successful bidders save two are residents of Richmond. The bids were opened at noon. The total purchase aggregates $136,500. The prices enabled the commissioners to take over the additional amount.

Robert P. Bruce, of Wise county, former State Senator and for several terms commonwealth's attorney of that county, was yesterday nominated for Congress by the Ninth district democratic convention which met at Bristol. Mr. Bruce will oppose Col. Campbell Slemp, the republican nominee, and is considered one of the strongest men his party could have obtained. The only disturbing incident of the entire convention occurred when Congressman Campbell Slemp, the republican nominee from the Ninth district, appeared in the convention. Upon being observed there were cries of "Put him out!" The disturbance did not last long. Congressman Slemp was taken out of the Opera House by friends, who escorted him to his room. The chair and various delegates remonstrated with the audience to act with decorum, but the manner in which the congressman entered was not accepted as being in the proper spirit of respect towards the convention and this accounted for the unseemly demonstration. The convention was one of the most enthusiastic that ever assembled in the district.

Tom Watson Challenged.

John M. Barnes, postmaster of Thomson, Ga., and former United States marshal, has challenged Thomas E. Watson, populist candidate for the presidency in 1904, to fight a duel. So far Watson has not accepted.

The trouble grows out of a charge made by Barnes that he was told by Watson in 1904 that the latter worked for Roosevelt in the east and the west, receiving $50,000 therefor from the republican national committee. When Watson heard this story he wrote Barnes demanding to know if Barnes had made the charge Barnes' reply did not satisfy Watson, who wrote another letter, as follows:

John M. Barnes,

Sir: Yours received. I regard it as evasion of my question. When you say that I told you I would have control down here, you state what is false. I have no doubt now that you have used the language about which I inquired, and I now denounce that statement as an infamous falsehood.

In reply, Barnes sent the following:

To Hon. Thomas E. Watson.

Sir: I received your letter Saturday night, and this is my first opportunity to reply. Some of the language in your letter is very offensive to me, and I hereby beg that you will retract every word and every syllable of it, or, failing in that, that you will indicate at what time and place on the frontier of a neighboring State we may continue this correspondence. Respectfully,

JOHN M. BARNES.

This will be handed to you by my friend, Mr. Guy I. Callaway.

Barnes says Watson declined to receive the challenge, and then says:

"Tom Watson prides himself most on his fighting qualities, on his reputation as a bear-eater, as the people there call him, for he has been in or on the verge of more shooting scrapes than any other man in the community, but singularly enough all his adversaries have been unarmed, and they are generally attacked when Watson has a crowd of his hirelings and ruffians around to teach him safety. The town is getting tired—so tired—of his bullying and rowdyism, and the public can form their own conclusions as to whether he is looking for a fair fight."

Dr. T. N. Pease Resigns.

The President and Secretary of the Navy Bonaparte have settled the cases of Assistant Surgeons Harry Lee Brown and Theodore N. Pease, United States navy, who were recently tried in Washington on the charge of "cribbing" in their examinations for promotion.

The court found Pease guilty, as charged, of conduct unbecoming an officer and a gentleman and of scandalous conduct, and sentenced him to be dismissed from the service. It is understood that Pease, through his attorney, requested to be allowed to resign "for the good of the service." Word was unofficially received from Oyster Bay yesterday that this proposition had been accepted and approved by the President.

Assistant Surgeon Harry Lee Brown, who was tried for the same offense, was not found guilty on all the charges and specifications, but only partially guilty on his own admission that he communicated with another officer, presumbably Assistant Surgeon Pease, during his examination for promotion. There was excellent reason to believe that Dr. Brown was not criminally guilty in having received information during the examination to assist him in his work, but inasmuch as he communicated at all and thus so seriously violated the naval regulations, the court sentenced him to be reduced 15 numbers in his grade. This will operate so as to delay his promotion for 10 months, and is considered a light sentence.

Today's Telegraphic News

EARTHQUAKE IN SOUTH AMERICA

New York, Aug. 17.—Private advices from Valparaiso, Chile, received in this city this morning report terrific earthquakes there last night. Many buildings were wrecked and hardly a house escaped without damage. Fires broke out throughout the city. It is feared there have been many casualties.

A dispatch from Valparaiso says that cable lines are working as far as "Valparaiso Hut," the cable building on the seashore outside of Valparaiso.

All land lines to the interior of Chile are down. The operator in the "hut" says that the disaster is probably a repetition of the San Francisco calamity.

The Mexican Canal Company received information last night of the interruption of the service along the west coast of South America by earthquakes in the neighborhood of Iquique, Chile. No details, however, were given.

Advices received from Buenos Ayres, via London, also stated that a terrible earthquake was felt in the Cordilleras De Los Andes, lasting five seconds. Communication between Chile and Argentine was reported to be completely interrupted. Kingston, on the Island of St. Vincent, also was affected by the earthquake on Tuesday night, according to the dispatches from that point. Shocks were felt also on the island of St. Lucia during the night of August 2. In all fifty-one distinct shocks were felt.

Information received up to 10 a. m. regarding the earthquake at Valparaiso is still of a meagre nature. It occurred at 7:40 last night, and there were several severe shocks, followed by a conflagration. How far the fire extended or how much damage resulted has not yet been learned.

More Banks Closed.

Boston, Aug. 17.—The United States bank examiner at nine o'clock last night ordered the First National Bank of Chelsea to close its doors, pending an investigation. The crash was precipitated by the Thomas Martin, of Wakefield, one of the directors, who has not been satisfied with the way things have been going. President Sylvester Hinckley has not been devoting all his time to the institution, and Mr. Martin concluded that Mr. Whittlesey, the cashier, needed assistance. So, three weeks ago, he asserted his rights as a director and began a rigid investigation. It is said that he discovered that the bank was carrying great loads of paper worth less than its face value and had been apparently unwise in its investments. He, it is said, summoned bank examiner Ewer who arrived yesterday. Rumors of a defalcation are denied absolutely, and Mr. Martin and Examiner Ewer incline to the belief that no criminality exists. The paid up capital of the bank is $300,000. The deposits approximate $1,000,000.

Chicago, Aug. 17.—As an echo of the crash of the Milwaukee Avenue State Bank, the Garfield Park Bank has closed its doors. Deposits approximating $100,000 indicate the extent of the failure to the community on the west side. The bank, private property of Ellis E Drake, is in the hands of Receiver Henry Hiestand, appointed by the federal court. There was a run of two days.

Constable Killed by Italian.

Asbury Park, N. J., Aug. 17.—Constable William R. Hodges was shot and killed in Asbury Park this morning by Frank Markagom, an Italian, following a dispute at a dance hall in Springwood avenue. The murder took place at 3 o'clock. City Detective Walsh was placed on the case at 5:30. At 6:30 Walsh traced the murderer to West End, where he was about to board the train The Italian drew a gun. Walsh covered the fugitive and in an instant had him fast. Markgaom was taken to Asbury Park when a crowd learning of his capture collected and threatened to lynch him. The murderer was hurried to Justice Bergen's office, by whom he was committed in time to catch the 7:55 train for Freehold. He was manacled to Assistant Prosecutor Stocks and Officer Sommerick, and, with a crowd following muttering threats, was thrown into a special car while the crowd howled outside. Markagom admits his guilt He was drunk last night and insisted on going into the dance. Hodges, who was on guard, told the Italian to pay for his ticket or get out. Words ensued. Markagom flashed his gun, and fired two shots. One took effect in Hodges's leg, the other penetrated the heart. Hodges was 35 years old and was an efficient officer. The Italian was 26 years old. He bears a bad reputation and by many is believed to been implicated in the Nafel murder.

Race Across the Atlantic.

New York, Aug. 17.—An interesting race across the Atlantic between the American line steamer New York, from Southampton, and the Cunard line steamer Etruria, from Liverpool, will be finished at Sandy Hook early tomorrow morning. The vessels left their respective ports on the other side on Saturday last and they have been close to each other since. The latest wireless report from the steamers was received Thursday night. It reported that on Thursday they were neck and neck 150 miles southeast of Sable Island, N. S. Barring mishaps, the New York and the Etruria should reach their piers in the North river at 8:30 tomorrow morning. Other trans-Atlantic liners bound for New York and which should reach here before dusk Saturday are the Caledonia from Glasgow, the French liner La Touraine, from Havre, and the White Star liner Cedric, from Liverpool. All of these vessels have been reported by wireless off the Newfoundland coast, and each is crowded to its capacity with returning tourists.

Killed Wife and Committed Suicide.

Los Angeles, Cala., Aug. 17.—E. H. Sanderson, President of the California Truck Company, this morning killed his wife and then committed suicide with a razor. The deed was committed while the couple were alone at their palatial residence in Westlake district. The deed was not discovered until the return of the housemaid at six oclock She found Mrs. Sanderson dead in the sun room in the rear of the house, and rushing up stairs to notify Sanderson, found him dead in his own room with his throat cut and a razor on the floor beside him. Sanderson had been mentally unbalanced for several months, but gave no signs of violence. Mrs. Sanderson was a daughter of ex-State Senator Rose, and was one of the most prominent society women in Southern California. An only son, Rowe Sanderson, survives.

Conditions in Russian Poland.

Bucharest, Roumania, Aug. 17.—Warsaw is in a panic following the massacre of Jews there, and hundreds of frightened fugitives from the Polish city are fleeing to Roumania for protection. The refugees bring word that the anti-Jewish outbreaks in Warsaw have steadily extended until no one feels safe. The feeling of fear is general throughout southern Russia, and many persons are fleeing from the country to seek places of refuge abroad.

A lively traffic in passports has sprung up along the frontier, caused by the rush of fugitives to get out of the country. Smuggling of fugitives, unprovided with passports, across the frontier range is also being indulged in. The charges for smuggling refugees over the frontier range from 10 to 50 roubles according to the means of the smugglers' victims. The guards are keeping a watch to see that persons who have no passports are not allowed to pass and many persons have been shot in trying to cross the border surreptitiously.

The Trouble on the B. R. T.

New York, Aug. 17.—Under the rebate check agreement wherby the company will refund all extra fares collected on the Coney Island lines, the Brooklyn Rapid Transit system will resume its trolley service under the normal schedule. General Manager Calderwood said that if the check system did not work properly the surface traffic would be immediately stopped and the elevate trains only run to Coney Island. There was no further trouble between the company's employes and the traveling public last night or this morning.

General Manager Calderwood, superintendent Smith and Inspector Newberry, officials of the B. R. T., will be examined this afternoon in Brooklyn on charges of inciting to riot in connection with the attempt of the company to collect the extra fare to Coney Island. Meanwhile Brooklyn officials and company officials are in Albany consulting with the Attorney General in an endeavor to get together on some sort of legal proceedings that will hurry a final decision on the ten cent fare from the Court of Appeals.

Heavy Rains in Suffolk.

Suffolk, Va., Aug. 17.—Following a long series of downpours, the climax shower came early this morning, when the precipitation was over four inches within less than two hours. The rain clouds also brought and deposited on Main street near the City Hall a species of sea serpent, the like of which never was seen here before. The clerk of the market, H. E. Smith, managed to get the visitor into a large box and hundreds of persons have inspected the thing which is still alive and which will eat clubs or anything else which is thrown within reach. Doctors say the specimen belongs to the eel family, but is larger than any eel ever seen in this State. Photographers are seeking negatives.

Appeal to President Roosevelt.

Fort Worth, Tex., Aug. 17.—State Rangers have been sent to Brownsville, to preserve peace. Four hundred white men are armed with Winchesters, and are only waiting for the negro troops to show themselves. A direct appeal has been made to President Roosevelt by citizens of Brownsville, to remove the negroes and replace them with white troops. Conditions are so strained that negroes are not allowed to enter their barracks. The negroes stationed ot Fort [illegible] angered because [illegible] sell them drinks [illegible] up the main street of Brownsville.

Murderer Hanged.

Louisville, Ky., Aug. 17.—Joseph Johnson, colored, was hanged in the county jail [illegible] morning for wife murder. He displayed remarkable nerve, not being pronounced dead for twenty-four minutes, although his neck was broken. His groans were clearly heard Until a few days ago John had lived in abject terror of execution. Then he suddenly recovered his nerve and showed no signs of fear on the gallows. He was the second negro hanged in three weeks.

Graduating Ceremonies.

Annapolis, Md., Aug. 17.—The graduating ceremonies of the first section of the senior class of midshipmen will take place at the Naval Academy on September 12. It has been announced that secretary of the Navy Bonaparte will deliver an address on that occasion, and will personally present the diplomas to the graduates. There will be eighty-six young men to graduate.

Workmen Injured.

Wilkesbarre, Pa., Aug. 17.—Seven workmen were seriously injured, one fatally in the collapse of the New Century Correspondence school building, today, while at work remodelling the structure. The building is being turned into an apartment house, and while the workmen were removing a truss the ceiling and timber fell upon them, burying them in the debris.

Explosion of a Locomotive.

Birmingham, Ala., Aug. 17.—Without warning of any sort, engine No. 18 attached to a Birmingham Southern freight train blew up at Ensley, this morning blowing the engineer and fireman into eternity.

Entered Convent.

Cincinnati, Aug. 17.—Miss Celeste O'Shaughnessy, the beautiful daughter of the millionaire Newport distiller, tired of worldly life, just as she was stepping upon the threshold of it, has entered Mount St. Martin's Convent for life.

Flees from Altar.

Miss Myrtle, daughter of John R. Jones, superintendent of the water works at Berlin, Pa., disappeared last Tuesday, the day she was to have been married to Wilson E. Baker, a well known young man of Greensburg. She was found by her father at the home of friends in Pittsburg yesterday and refused to return home and marry Baker. "I don't like him and I will not marry him," was her only response to her father's request for an explanation. The girl is 17 and Baker is 22. The wedding was to have taken place on Tuesday evening and a large number of guests assembled at the Jones home, in Berlin. Several hours before the time set the girl boarded a train at Rockwood, Somerset county, and went to Pittsburg.

Dividends Declared.

New York, Aug. 17.—The Union Pacific Railroad Company officially announces the declaration of a semi-annual dividend of 5 per cent on the common stock and the usual semi-annual dividend of 2 per cent. on the preferred stock. This puts Union Pacific on a 10 per cent. basis. The Southern Pacific Railroad Company this morning declared a dividend of 2½ per cent. on its common stock. This is the first dividend ever paid. The Southern Pacific dividend of 2½ per cent. on the common stock is stated to be semi-annual. The dividends of the Union Pacific Railroad Company are payable to stock of record September 15, and the dividends on the Southern Pacific common are payable October 1, to stockholders of the dividend warrants. These dividend declarations have long been expected in Wall street. Both companies have been showing immense earnings and the delay in dividend announcements have kept financiers and speculators on the anxious seat. These have been important factors in the stock market because of the expectations and have largely influenced the rest of the list according to how the street interpreted any gossip regarding these properties. E. H. Harriman is the directing head of both roads and Standard Oil interests have much money invested. The news set the stock market in a whirl. Union Pacific jumped from around 163 to 170 and Southern Pacific from 83 to 89. The rest of the market generally made slight gains. For a time the bears were in a panic, but at the top wave there was extensive profit taking and recessions occurred.

The Pope's Encyclical.

Paris, Aug. 17.—The recent encyclical issued by the Pope to the French clergy in regard to the laws separating church and state in France was the subject of discussion at a meeting of the council of ministers today. The meeting was held at Rampouillet, with President Fallieres presiding, and the subject was considered at length.

The government will stand firm for the enforcement of the law for the separation of church and state notwithstanding the position taken by the Pope in his encyclical issued to the French clergy this week in which the pontiff [illegible] he said that the management of church [illegible] not be entrusted to lay associations as the law provides. This decision was reached at a meeting of the council of ministers held today at Rambouillet under the presidency of President Fallieres.

Cow's Tongue a Life-saver.

Sayre, Pa., August 17.—Simon Worster, a farmer on the Elliston road, believes that he owes his life to a friendly cow which he was fattening for the butcher. He fell unconscious in his barn at about 3 o'clock in the afternoon, and at 6 he was brought to his senses by his old cow standing over him and licking his face. The animal had apparently been doing this during all the interim, for when he recovered consciousness his wrists were all aglow from the rough coat of the cow's tongue. His doctor said that the animal had saved his life; that the constant rubbing of her rough-coated tongue against his face and on his pulse had restored respiration. Instead of the bovine healer being slaughtered, she will live in pastures green and by cool waters as long as she breathes.

New York Stock Market.

New York, Aug. 17.—There was no need of any gossip to account for trading movements today. The facts were enough and when the official announcement was made of the declarations of the Harriman dividends, the trading in those stocks was more exciting than has been noted on the floor of the stock exchange, except in time of panic. Many brokers had orders to buy 10,000 of these stocks at the market. Room traders rushed to buy for their own account and after them came a struggle to cover large lines of shorts. The two crowds became howling, surging masses and little attention was paid to prices in the execution of orders. Union Pacific rose 8½ points and Southern Pacific six points, both by far to the highest prices on record. Next to the Harriman stocks the greatest strength was shown in Pennsylvania which rose 3½. Price changes in the majority of the stocks traded in were irregular and uncertain.

New York, Aug. 17.—There has been a bear panic today on the stock exchange in Union Pacific because of the unexpected announcement of the increase in the rate of dividends, to ten per cent. [illegible] closed yesterday at [illegible] and nearly [illegible] this afternoon had jumped [illegible] 16 points, bear operators and shorts took [illegible] over themselves to cover [illegible] to 7,00 shares came out in long strings.

London Stock Market.

London, Aug. 17.—There was an excited market in Americans today. The bears were panic stricken [illegible] regarding the dividend announcements regarding the Harriman-Pacific stock and a scramble to cover took place.

Lost Manuscript.

For over a year past Rev. Dr. W. A. Barr, of the Episcopal Church of Norfolk, and Rev. Dr A. J. Nock, of the same church of Blacksburg, have been jointly writing a book on the evidences of Christianity. It has been said by some that the ideas of these two reverend gentlemen are rather "broad," if not unorthodox, and it will be remembered that Mr. Nock wrote a letter in defence of Rev. Mr. Crapsey who now stands suspended because of his peculiar views. Early in the summer Mr. Barr took his manuscript over from Norfolk to Willoughby Spit to revise it and by mistake a servant in the house burned a number of the sheets. These, Mr. Barr, after much trouble, rewrote and a few days ago left Norfolk for this city, where he has many friends, intending to go to Blacksburg to consult Mr. Nock before the manuscript was placed in the hands of the publishers On the way up the river from Norfolk Mr. Barr placed his satchel containing his manuscript near a window on the boat and when he reached this city the satchel and its contents had disappeared. Strict search was made throughout the steamer for the lost satchel, but no trace of it could be found and it is supposed that a thief on board in passing Mr. Barr's statercom window stole the satchel and upon finding that it contained nothing of value to him threw it overboard to hide the theft. A strange coincidence connected with the matter is that Rev. Frank Stringfellow, Mr. Barr's father-in-law, greatly opposed the stand his son-in-law had taken on the subjects contained in the manuscript, and before the loss of the papers had told some of his friends that he had a presentiment that the book would never be published.

The Dog Days.

The planet has arrived at the point in its sidereal journey known as the dog days. In old times this period was dreaded as a one of pestilence and strange maladies. There were superstitions without number concerning the baleful influences of the season. Long exposure to moonlight was believed to drive men mad at this time; animals were believed to be possessed of evil spirits, and there was general fasting and praying in an effort to evade the many ills supposed to belong to the time. Just when dog days begin and end has never been very clear. The ancients held that the season began early in July and ended about September 1. Now it is said to begin about July 25 and end on September 5. The period takes its name from the star Sirius, called the dog star, which is said to rise during this season with the sun. The old superstitions concerning dog days have been forgotten, but there are some of modern origin. Nowadays the term is supposed by many to have reference to the susceptibility of dogs to rabies during the season. And the common belief that dog days begin on Aug[illegible]

Cisco was arrested and subsequently sent to the grand jury by Justice E. P. Thompson. Commonwealth's Attorney Crandall Mackey appeared for the prosecution, and Messrs. Machen and Moncure for the defendant. Mr. and Mrs. Welch are from Front Royal, the former being employed by the Brennan Construction Company.

The Greater Washington Movement.

The Washington papers continue to print articles in the interest of the movement toward expanding the commercial importance of Washington. Residents of that city now charge that delays in the shipment of freight from Alexandria is detrimental to them. Mr. Bowie, of the Pennsylvania Railroad, after having been interviewed by a committee of Washingtonians, has agreed to arrange for through billing of goods from Washington to the South. That freight does not move past this city to the Southern systems with dispatch is alleged by the Washingtonians. The latter say that the Southern roads must go to Washington for their loads of freight, or the freight must go to the southern side of the Potomac for first loading. If, say the Washingtonians, the present system cannot be broken up and the cars run into South Washington for first loading, then the Washingtonian merchants must take the bit in their teeth, build a big central warehouse in Alexandria, keep their goods there, and load the freight but once.

Will Filed.

The will of the late George H. Bakersmith, dated at Alexandria, October 25, 1895 was filed in Washington yesterday for probate. The entire estate, which is set out in the will, consists of four houses and a vacant lot on Rock Creek Ford road, fives shares of stock in the Washington 6 Per Cent Building Association, and a grocery business at No. 222 north Alfred street, is left to the widow, Mrs. Lena Bakersmith, during her life of widowhood. At her death or remarriage the property is to go to the children of the deceased.

Fingers Cut Off.

A young man named William Butler, employed at the American Loktile Works on the Strand, had several fingers cut off by a machine while at work this morning. He was taken to the Alexandria Hospital for treatment.

Wedding.

Mr. Edgar Warfield, jr. of this city and Miss Anna Evelyn Stearns, daughter of Mr. L. Frank Stearns, of Philadelphia, were married at 6:30 o'clock on Wednesday evening at the home of the bride, No. 3219 west Dauphin street, Philadelphia The grooms' best man was Mr J. Randall Caton, of this city, the maid of honor was the bride's sister Miss Vera Stearns. The ceremony was performed by Rev. Dr. C. Lee Gaul. After the ceremony Mr. and Mrs. Warfield left for a trip to Niagara, Thousand Islands, Montreal, Watkin's Glen, Lake George, Lake Champlain and the mountains of New England. Among those who attended the wedding from this city were Mr. and Mrs. E. Warfield, Mrs. George E. Warfield and Master Ashby Warfield; Messrs A. K. Warfield, H. B. Caton, Mr. and Mrs. R. F. Downham and Mrs. J. M. Hill.

River Notes.

Thrown From Handcar.

Mr. [illegible] Deavers, track supervisor of the Southern Railway, was seriously injured yesterday while engaged in his duties. He was on a handcar, which was running at a rapid rate, when it jumped the track and Mr. Deavers was thrown off. His head was cut and he received painful bodily injury.

Machinist Scalded.

Mr. Joseph Clark, a machinist at the Southern Railway shops in this city, was severely scalded at the round house at an early hour this morning. He was on a locomotive engaged in making repairs when he was struck by a volume of escaping steam and knocked from the engine to the ground.

Woman Arrested.

Tessie Criss, who has several times during the past few years figured in cases against parties charged with the unlawful sale of cocaine, was endeavoring to purchase some of the narcotic yesterday evening when she was arrested by Officer Jones. She was taken to the station house, but subsequently released.

Fined Fifty Dollars.

Pearl Hawkins, colored, living in the northeastern section of the city, was arrested yesterday by Officers Bell, Jones and Henderson charged with selling liquor without a license. The woman was brought before Justice Pelton in the Police Court this morning and was fined $50.

LOCAL BREVITIES.

There will be a game of baseball this evening at 5 o'clock between the Old Dominion and the Portner Brewery clubs.

A man and a woman from Washington attracted some attention at the Royal street station of the electric railway late yesterday evening by what was construed by Officer Jones as disorderly conduct. He took the couple in charge, but they were later released.

The schools of Alexandria county will open for the new year September 17 for a term of nine months. At the last meeting of the county school board, the superintendent reported to the board that a school levy of 40 cents on the $100 had been made, the amount being the maximum allowed by law without a vote of the people. It was ordered that the county board of supervisors be petitioned to put to a vote of the people of Arlington district to fix the levy at 50 cents and to fix a date for a special election for the purpose.

The old frame house on the southwest corner of Wolfe and Henry streets was discovered to be on fire again yesterday. The flames were subdued without sounding an alarm. This building has caught fire several times recently.

There is so much uncertainty among the firemen as to whether they are going to Richmond next week to attend the State Firemen's Association that the question now at all the engine houses is "Are you going?"

Mrs. Laura C. Rudd, wife of Mr. J. N. Rudd, died in Washington yesterday morning. The deceased was 66 years old. The remains will be interred in this city.

More Trouble Feared.

According to a telegram received by Governor Lanham from the authorities at Brownsville, Texas, conditions there are anything but reassuring. While all was quiet yesterday, it is reported that there is an armed body of men extending from the city proper to the barracks, and it is believed if any negro soldiers show themselves there is danger of immediate and serious trouble.

Further trouble is feared in Brownsville with the negro troops. A citizens' guard of 150 men is stationed along the road between that city and Fort Brown, and if the negroes attempt to leave the garrison, it is the avowed purpose of the citizens to shoot them. Four hundred rifles were sold to citizens Wednesday. It is reported that the officers of the garrison are themselves afraid of the negro troops. Many people are leaving their homes on the side of Brownville near Fort Brown.

Additional appeal is being made to Governor Lanham to send state troops. Business is nearly suspended in Brownville.

Opposed to Aiding Exposition.

At yesterday's meeting at Harpers Ferry, W. Va., of the Niagara movement, in which negroes from many States are seeking full civil and political rights, reports were read by the secretaries for the States of Illinois, Maryland, New Jersey, New York, Massachusetts, Pennsylvania and Minnesota.

The reports emphasize the organized nature of the movement among the negroes of thirty-two States. They pointed out the activity of the negroes of the northern States, who opposed appropriations in aid of the Jamestown Exposition on the ground that the State of Virginia had disfranchised negro men and had established the separate car system; and referred to the negro opposition to an amendment to the railroad-rate bill which would have given sanction to the separation of the races in interstate passenger traffic.

The reprots set out that the movement was organized to give prominence to certain definite principles, among which is the abolition of all distinctions based on color.

Giant and Giantess Wed.

The loungers around the Court House in Washington yesterday thought that a circus was in town, for what appeared to them to be a giant and giantess entered the office of the marriage license clerk and obtained a license to be married. The couple gave their names as Ivan Nelson Kemp, of Dayton, Ohio, and Miss Lulu Virginia Miller, of Harrisonburg, Va. The couple had endeavored to be married in Harrisonburg, the home of the bride, but as she was only 17 years of age the license was refused, and Mr. Kemp, who is a farmer in Ohio, decided to go to Washington to have the ceremony performed. Miss Miller went with him and they were married by a Methodist minister soon after the license was issued. Mr. Kemp and his bride are said to be the tallest couple ever to obtain a license in Washington. He is over six feet tall, and Mrs. Kemp is only a few inches shorter. Hence, when they appeared at the Court House, the loungers thought they were adjuncts to a circus.

The Art of Idling.

Cultivate the art of idling. There is no doubt that to be able to idle at will is a most valuable gift and one which is becoming rarer every day. The art of loafing is not properly understood by the majority of people. Much has been written on the subject. Stevenson dealt with it in an essay; Mr. Kenneth Grahame touched on it in "Pagan Papers," and Mr. Barry Pain has some illuminating remarks on the subject in his Canadian canoe book. There is a subtle difference between the views of these experts. Mr. Grahame advocated absolute idleness. Mr. Pain pointed out, with more truth, that the great art of loafing was to do the easiest thing and that sometimes it is easier to work than to be idle. This is the secret of the whole matter. The superficial idler thinks it his duty to be idle on every occasion. The man who has studied the subject knows that this is an entirely erroneous view. There are times when we feel that we must be up and doing. If we sternly repress this inclination our peace is disturbed. The really scientific idler is the man who can idle at will.—London Chronicle.

History of the Typewriter.

"The history of the typewriter is interesting," said an inventor. "The first patented machine was Henry Mill's. It was as big as a bureau and made no popular appeal. This was in England in 1714. The first type bar machine was made in America. Its inventor was A. H. Beach. The patent was taken out in 1856. The Beach typewriter was not practical. The first practical typewriter was invented by Latham Sholes in 1867. Sholes had for partners S. W. Soule and Carlos Glidden, but these two men became discouraged and dropped out. It wasn't till some years later that Sholes got his machine ready for the market. Then he took it to a big firm of gunmakers, the Remingtons, and it at once began to sell on a large scale. Sholes remained in the employ of the Remingtons up to the time of his death."

Resin.

The resin of the shoemaker and fiddler is obtained from different species of the fir tree—as the Scots fir, the larch and the balsam fir of Canada. It is well known that a resinous juice exudes from these trees, which hardens into solid tears. The clear juice itself, before it has dried up by coming to the surface, is known in commerce as turpentine and is in the main composed of oil of turpentine and resin. When the juice is distilled, the oil comes over, and the resin remains behind. When the distillation is carried on to dryness, common resin is formed, but when water is mixed with it while yet fluid the resulting mass is the variety called yellow resin, which is more preferred for most purposes because it is more ductile than the former, owing probably to its containing some oil.

Graves and Gravediggers.

"Gravedigging is not a gay business," said a gravedigger, "but it is a very old one, and many curious superstitions surround it. One of these is never to buy a new spade. To dig a grave with a spade that is new is supposed to bring death in the family within a twelvemonth. Hence gravediggers buy their spades second hand as a rule. Another superstition with some is that a grave should never stand open overnight. It should not, they say, be dug till the day of the funeral. If it is made the day before, beware. There is a third superstition that if a cock crows once while a grave is being dug one friend of the digger will die; if it crows twice, two will die; if thrice, three."

The Orange Tree.

The orange is the longest lived fruit tree. It begins to bear the third year after budding, and for 100 years it will yield abundant crops. Orange trees have been known to attain the ripe age of 300. The orange requires less care and attention than any other fruit tree. Its early growth is rapid. In the first two years it grows more than it will in the next fifty. This refers of course to its height and breadth alone—its fruit stems and consequently its crops increase more rapidly after the first ten years.

The Society Butterfly.

That maligned creature the "society butterfly" is as hard working in its way as Solomon's ant and goes about its duties with a steady application and a determined disregard of fatigue and boredom which not a few industrial and other workers might imitate with advantage. Take, for instance, the charity bazaars and festivals.—London World.

Too Strong Competition.

Country Mouse—How are you getting on with your business, doctor? Country Doctor—Bad. Too close to London. Why, Lady Cashbags went to town and paid two guineas to have a corn extracted. I'd have amputated her foot for that.—London Answers.

A Healing Gospel.

The Rev. J. C. Warren, pastor of Sharon Baptist Church, Belair, Ga., says of Electric Bitters:" "It's a Godsend to mankind. It cured me of lame back, stiff joints, and complete physical collapse. I was so weak it took me half an hour to walk a mile. Two bottles of Electric Bitters have made me so strong I have just walked three miles in 50 minutes and feel like walking three more. It's made a new man of me." Greatest remedy for weakness and all Stomach, Liver and Kidney complaints. Sold under guarantee at E. S. Leadbeater & Sons' drug store. Price only 50c.

Prof. Tyler, of Amherst college, said recently: "A man can live comfortably without brains; no man ever existed without a digestive system. The dyspeptic has neither faith, hope or charity." Day by day people realize the importance of caring for their digestion; realize the need of the use of a little corrective after overeating. A corrective like Kodol For Dyspepsia. It digests what you eat. Sold by W. F. Creighton & Co., 401 Kingstreet.

POMPEIIAN MASSAGE CREAM cleanses where soap and water fails. Men who shave themselves or are shaved by barbers should use it. Be your own beauty doctor. Price 50c and $1 per jar. For sale by

Waterman's Ideal Fountain Pen

Stop Borrowing

If you had a Fountain Pen in your pocket you would not be obliged to borrow a poor, scratchy steel pen when you wish to write.

Waterman's Ideal Fountain Pen

is always ready and is indispensable to every business man.
